AIRPLANE DRAWINGS TO TWA

- Ref. (a) TWA Letter of Agreement No. 16
(b) Delta Letter of Agreement No. 18

In the referenced letters, Convair has agreed to make copies of the detail and assembly drawings for the CV-880 available to TWA and Delta at a reasonable price. The agreement with TWA is quoted as follows to fully clarify our commitment on this item:

"It is agreed that Convair, as soon as practicable, will furnish you one (1) Micro-master negative and one (1) contact print, or one (1) reproducible copy of each drawing from which the first of the Aircraft is manufactured and revisions and replacements for such negatives and reproducible copies as required due to changes in subsequent Aircraft during manufacture. In addition, Convair will furnish, thirty (30) days prior to delivery of the first Aircraft, one (1) Micro-master negative and one (1) contact print of each of the wiring diagrams from which the Wiring Diagram Manual pages are made. The abovementioned materials will be furnished against Purchase Orders received from you and at Convair's standard charges, which shall be reasonable."
